PROFESSIONAL SUMMARY

I am Java Developer with 2+ year of hands-on experience in building scalable applications using Java 8, Spring Boot, RESTful APIs, and Microservices. Familiar with JSP, MySQL, HTML, CSS, JavaScript, and eager to contribute to an innovative IT organization

SKILLS & TOOLS

Java SE | OOP | Collection Framework | Streams | Lambda | JDBC | Java EE | Restful Web Services | Microservices | Hibernate | Spring Boot | Spring security | Spring Data JPA | Java Mail API | Feign Client | JSP/Servlet | Design patterns | MySQL | PostgreSQL | GIT | IntelliJ | Eclipse | MySQL Workbench

EDUCATION & CERTIFICATION

SZABIST -Karachi MS Computer Science	Sept-2025 Cont..
Logic Rays Academy Java Full stack Developer	Feb-2023
IoBM BS-Industrial Engineering	2018 - 2022

EXPERIENCE

Gateway360 (Pvt) Limited (INTERACTIVE CONVERGENCE (PVT) LTD) Java Developer	June-2025 cont...
- Developing enterprise Java applications related to Hospital Management System. - Developing microservices of a project related to Online Streaming Platform (OSP). - My responsibility is Maintaining enterprise production applications by fixing client Bugs and develop the full stack web application for OSP.	

Dove Soft Ltd (CPaaS ,Bulk SMS, RCS, WhatsApp campaign service) Junior Java Developer	July 2024
- Contributing to services such as Bulk SMS, RCS, and WhatsApp by managing large-scale messaging campaigns and integrating real-time Delivery Reports (DR) through robust API integrations. - I have been an integral part of backend Java development, crafting Spring Boot and microservice-based APIs that address the unique business requirements of web clients. Throughout these projects, I have ensured complete code coverage while maintaining a high standard of performance, security, and scalability.	

LogicRays Technologies Pvt. Ltd. (E-commerce, System Management App) Java intern (Trainee)	Sept 2023 - Feb 2024
- Served as a backend specialist, actively involved in developing Spring Boot microservices applications . - Addressed production issues and bug fixes while maintaining code scalability. - Actively involved in multiple projects, directly engaging with clients to gather requirements, troubleshoot issues, resolve bugs, and deliver effective technical solutions.	

PROJECTS

Project #1	Client: Dove Soft Ltd
Title : Clitix (CPaaS)	
Technologies : Spring boot, Microservices, Java-8, SQL server, Spring MVC , JSP, HTML, CSS & Java Script	

- Developed and implemented SMS, RCS, WhatsApp bulk campaign service by creating REST APIs.
- Implemented Chatbot service for direct client query using WhatsApp META APIs.
- Maintain real time DR's (Delivery Reports) by Observing External APIs response.
- Integrated Multithreading for Complex multiservice campaigns to ensure smooth processing.
- AI integrations for Text To Voice and Voice to Text functions to client's.
- Engineered robust file handling modules, enabling clients to upload campaign data, download delivery reports, and gather customer feedback efficiently through secure, fault-tolerant workflows.

Project #2

Client: LogicRays pvt ltd

Title : Acumenn App (Mobile App)

Technologies : Spring boot, Microservices, Java-8, SQL server, Spring JWT

- Developed backend services using Java and Spring Boot for modules like project, task, leave, and attendance management.
- Integrated WebSocket for real-time comments and task and comments updates.
- Implemented Firebase Cloud Messaging for push notifications.
- Built robust authentication and email verification mechanisms, ensuring secure user onboarding and access control within the mobile application ecosystem.

Project #3

Client: GateWay360

Title : IntelliCare (HMS)

Technologies : JAVA EE, JSF, JSP, Oracle database

- Fix the bugs in existing code to meet client requirements.
- My Domain is on both backend-java and front end -JSF.
- The Core business is all about Hospital Management.
- Deal with issues of oracle Data base, learning on Triggers and procedures.

Project #4

Title : Online Streaming Platform(OPS)

Technologies : JAVA ,Spring boot, Microservices, MySQL, ReactJS

- Developed backend on Java spring boot and microservices.
- Front stack on ReatJS
- Data base managed on MySQL.
- the core concept to stream the videos web portal through multiple channels.
